This volume is an attempt to provide this intersectional and reflexive space. The thinking behind the book began in Lamu in mid-2010. It was a time when growing community resistance emerged towards the Kenyan government's plan to build a second seaport under a trans-frontier infrastructural project known as the Lamu Port- South Sudan-Ethiopia Transport Corridor (LAPSSET). The editors agreed that a book that draws community activists, academics, researchers and policy makers into a discussion of the predicament of indigenous rights and development against the backdrop of the Endorois case was timely and needed.
