9789814642163

\$ 14.00 / PB
200 gm.

The book sets the backdrop for the forthcoming general election. How will the political process evolve in the post-Lee Kuan Yew era?

This book is written for the citizens, voters, students of history and politics, and all who have an interest in the governance of Singapore. It traces the evolution of the political process in Singapore after World War II, from Crown Colony to self-governing state, to a state within Malaysia, to an independent and sovereign Republic, up till the two elections in 2011.

It discusses the reasons for the PAP's dominance in Parliament. The author is a former historian and elected Member of Parliament who co-edited *We Also Served: Reflections of Singapore's Former PAP MPs*, published in 2014

\$ 29.90 / PB

650 gm.

The presidency of Susilo Bambang Yudhoyono (2004-14) was a watershed in Indonesia's modern democratic history. Yudhoyono was not only the first Indonesian president to be directly elected, but also the first to be democratically re-elected. Coming to office after years of turbulent transition, he presided over a decade of remarkable political stability and steady economic growth. But other aspects of his rule have been the subject of controversy. While supporters view his presidency as a period of democratic consolidation and success, critics view it as a decade of stagnation and missed opportunities. This book is the first comprehensive attempt to evaluate both the achievements and the shortcomings of the Yudhoyono presidency. With contributions from leading experts on Indonesia's politics, economy and society, it assesses the Yudhoyono record in fields ranging from economic development and human rights, to foreign policy, the environment and the security sector.

New Trends of Political Participation in Hong Kong / Joseph Y.S. CHENG (ed)

City University of Hong Kong Press, Hong Kong 2014

532p.; 22cm.
9789629372330
\$ 38.00 / PB

At a time when there is a developing ideological gap among generations and a degradation of trust between people and the institution of government, there are concerns whether young people's political participation activities will continue to radicalize.

This volume in 15 chapters serves as a useful overview of various significant aspects of the new trends of political participation in Hong Kong. Written by a team of experts who have been astute observers of Hong Kong Politics, the book covers a wide spectrum of topics ranging from a conventional understanding of political participation (e.g., the activities of political parties and interest groups) to a more specialized form of participation (e.g., the relationships between government and legislators in policy-making). The study of the rise of new social movements by the Post-80s generation would be of particular interest to those who are keen to comprehend the sharpening inter-generational differences.

There will be a readership among academics and university students. This can also be a valuable reference for the media, policy-makers, or anyone interested in Hong Kong politics

Bilateral Legacies in East and Southeast Asia / N. Ganesan
ISEAS Publishing, Singapore 2015
208p.
9789814620413
\$ 29.90 / PB

This edited volume examines the concept of overhangs or legacies or negative stereotypical images in international relations and their impact on bilateral relations between geographically proximate states in East Asia. The case studies chosen Japan-Korea, Japan-China, Vietnam-China, Thailand-Myanmar and Thailand-Cambodia demonstrate conclusively that bilateral overhangs or legacies have a significant impact on contemporary international relations. Such images are regularly replicated and stoked by a variety of constituencies, including state agencies, for their own selfish interests. The evidence also points to the fact that such bilateral relationships are relatively self-contained and often operate with their own dynamics. Powerful condensation symbols are appropriated to weave a story of the virtuous self and the stereotypical other. This negative image and its replication is important to an understanding of turbulent bilateral relations in East Asia and also helps to inform how such relations can be brought to an even keel.
