The culture of food and drink occupies a central role in the development of Chinese civilization, and the language of gastronomy has been a vital theme in a range of literary productions. From stanzas on food and wine in the Classics of Poetry to the articulation of refined dining in *The Dream of the Red Chamber* and Su Shi's literary recipe for attaining culinary perfection, lavish textual representations help explain the unique appeal of food and its overwhelming cultural significance within Chinese society. These eight essays offer a colorful tour of Chinese gourmards whose work exemplifies the interrelationships of social and literary history surrounding food, with careful explication of such topics as the importance of tea in poetry, "the morality of drunkenness," and food's role in objectifying women.

The Pacific writing Forum 2010

xi. 225p. ; 21cm.

9789823660226

\$ 34.95 / HB

Included in this volume are seven journeys covering fifty years. Each can be read as a rite of passage. Satendra Nandan calls the Rights of Passage. His girmit grandparents maternal and paternal had crossed the kalapani of the seven seas to arrive in Fiji around the 1890s.

These voyages of self-discovery and self-reflexivity chart different paths from and within Fiji: the first flight from Nadi Airport to his mothers Antyesti Samskara at the Wailoaloa crematorium. The lyrical beauty and ethical depth of a writers experience in Fiji, India, Australia are refracted in each piece: a rare revelation of the journey into ones self.

This book offers a complete translation of four early plays of the Yang Family Generals. The story of the Yang Family Generals, particularly its female generals, was a perennial favorite on the Chinese stage in the 19th and 20th centuries. In detailing the role of this military family in the Song-Khitan wars of the late 10th and early 11th centuries, these four plays are all in the form of zaju, a type of play that originated in the 13th century. These plays are from the 15th and 16th centuries and allow a glimpse into earlier renditions of the Yang Family saga, which is a decidedly more male-centered tradition than that performed in the Qing dynasty.

This volume offers the only complete English-language translation of these early plays. These plays allow access to the earliest phase in the development of the Yang Family saga. The plays provide information on the staging of large battle scenes on the stage and have considerable literary and cultural value.
