The Great Igbo Caste System: Drawing Parallels with Hindu Caste System / Onyeka Nwelue
India: Homers & Smith, 2025
538p.
9781068638312
\$ 65.00 / PB
668gm.

Onyeka's latest book "The Great Igbo Caste System (Drawing parallels with the Hindu Caste System)" is unique in the sense that he must be the first to have attempted to compare the Hindu Caste system with the Igbo caste. He builds the basic foundations of the book in the first eight chapters of the book by explaining the Igbo caste system and each individual caste and its position in the social hierarchy which would mean some serious research for authenticity.

Among the Yorùbá and others who speak its language, a significant predicament has persisted since the colonial era and arrival of missionaries. Many people, essentially from the Abrahamic religions, either on purpose or not, have erroneously equated Èṣù, an Òrìṣà in Yorùbáland with Satan. It is imperative to clarify that such an equation is fundamentally flawed. Hence, the primary purpose of this book is to discover our Yorùbáness—essence of being a Yoruba; explore and understand the Yorùbá indigenous practices and worldview; discern the person and true

essence of Èṣù within Yorùbá Indigenous Religion and differentiate its identity from the concept of Satan in the Abrahamic religions.

432gm,

Looking Back: My Journey as an African Princess charts the early life of Oboshie (as she was fondly called in childhood), beginning at No. 3 Short Street in Freetown. Born to a Ghanaian prince of the royal house of Christenburg (in Osu Kinkawe), chartered accountant Emmanuel Kwaku Kumimensah Obodai, and a Sierra Leonean (Creole) primary school teacher and dressmaker, Annette Christiana Effuah Obodai (née Jackson), her story is deeply rooted in a legacy of pride, tradition, and resilience. The memoir follows her transformative two-week journey to London-an adventure that not only opens the doors to a new world but also leads to a fateful meeting with her Nigerian husband-to-be. It is a story that interweaves personal heritage, cross-cultural romance, and the enduring strength of identity into a rich tapestry of self-discovery and royal legacy.

This is a product of research into the life of an icon in the history of colonial Lagos. As an educationist of both flavours – Western and Islamic – he made selfless and successful efforts to prepare the nursery beds for the educational, moral and spiritual nurture of the Lagos Muslim youths. Indeed, it was he who started the Muslim School which became the first Government Muslim School in Lagos. One would find in this book how Sheikh Idris Animashaun's experience of apprenticeship, journey to different lands, exposure to various cultures, adventures to different trades and businesses as well as engagements in religious and public services – complemented his visionary leadership in no small measure.

Media is the loudest pulpit of our generation. It shapes culture, disciples nations, and influences how people think and live. Too often, darkness dominates the headlines, songs, and screens, but God is raising saints to flood media with His light. Saints in Media is a prophetic call and a practical guide for believers in the media industry. Anchored in Psalm 44:3, it reminds us that influence is not gained by human effort but by God's right hand, His arm, and the light of His countenance.

Myxomycetes from Southern Nigeria / Angela U. Ejale

Benin City: Uniben Press, 2020
xiv, 310p.
9789789683918
\$ 55.00 / PB
524gm.

The Myxomycetes, due to their fungus-like appearance and their general neglect by zoologists have been traditionally studied by Botanists especially the mycologists. They are included among fungi because of the apparent resemblance of the reproductive structures (fructifications) to those of the fungi. However, they resemble animals in their vegetative or assimilative phase known as the plasmodium, a naked mass of protoplasm lacking a cell wall, which crawls along the substratum like a giant amoeba, engulfing solid particles like a phagocyte. This dual nature led to an age-old controversy whether to treat the Myxomycetes as plants or animals.

Nigeria and Nigerians have no business being poor at all. What we need is the wisdom to be prosperous. This book leads us to that wisdom. It would be enough for one, two or more states of the Federation to show the way by following the prescriptions herein contained and the entire country and continent would sumptuously benefit for this generation and far more to come. For we should hand on to our children, a banner without stain and a standard without blemish, reproach or regret. By operating our economy on the platform and basis of zero tolerance for unemployment, we would have built a nation that is deserving of genuine patriotism from a citizenry that would be focused and contented, as the progressive path of excellence and fulfillment comes to be pursued. It is attainable.

Ìşura Ọ̀rọ̀ Yorùbá: A Comprehensive Yorùbá Thesaurus is the first thesaurus of the Yorùbá language and the first descriptive thesaurus compiled for any African language. More than a word list, it explores how words connect, evolve, and gain nuance through Yorùbá's rich semantic relationships.

Featuring hundreds of entries, it classifies synonyms into absolute, partial, and near equivalents, offering an exemplary model for African lexicography. The book not only presents systematic methods of analysis but also investigates the diverse factors that shape synonymy in Yorùbá.

An essential resource for learners, translators, writers, and researchers, *Ìşura Ọ̀rọ̀ Yorùbá* includes hypernyms, phonological variants, and clear explanations of interrelated meanings. It combines practical vocabulary guidance with a celebration of Yorùbá intellectual heritage, inviting readers to uncover word connections, trace meaning across registers, and engage with the language in new ways.

In the post-colonial era, historians have begun to understand the middle belt of Nigeria as the cradle of several Nigerian groups. Studying the area has become central to the search for a proper identity of the diverse peoples of central Nigeria, and for an understanding of African history generally. This pioneering effort puts together, in one volume, research by some thirty academics on a region taking in the states of Kwara, Kogi, Plateau Nassarawa, Kaduna, Niger, Benue, Bauchi, Taraba, Adamawa and the Federal Capital Territory.

The Gustavus Vassa/ Olaudah Equiano's 1789 interesting narratives about the horrors of slavery in Igbo land, Nigeria, and the Trans-Atlantic Slave trade have elicited a lot of inquiry. However, Scholars working on slavery are yet to close the academic gaps in terms of ascertaining beyond the Igboness of Olaudah Equiano as challenged by Vincent Carretta. Stolen from his homeland, Essaka in present-day Isseke in Orlu Division, Southeastern Nigeria, Equiano wrote his story of global slavery from 1745. The Equiano narratives, as one of the foremost African literatures written by an enslaved person, is yet to be fully interpreted in terms of analyzing the in-depth meanings, names, and places mentioned in his slave narratives. This book, therefore, provides an intellectual history of Equiano's origins and his contribution in expressing the horrors of slavery at the global stage.

This first-ever ***Dictionary of African Philosophy*** emerges from a long-awaited intellectual journey—one grounded in the Great Debate of the 1970s–80s and validated by thinkers across and beyond the continent. Born of an international **UNESCO**-associated project, it answers the call for multiculturalism and the recognition of diverse epistemologies in the postmodern world, restoring balance in a global landscape where ideas must flow not only from centres to peripheries, but also the other way around.

This volume combines conceptual and empirical methodology to connect the administrative dots between the dynamics of democratic governance and the imperatives of development in Nigeria. The optimism underlying this book derives from the author's reflection on the connection between democratic governance, the civil service in Nigeria and the critical import of reform as the sine qua non for achieving not only a paradigm shift in Nigeria's productivity profile, but also as the means through which democracy can become a truly liberating ideology for Nigerians.

The Aburi Accord, also known as the Aburi Declaration, was a meeting held in Aburi, Ghana, on January 4-5, 1967, between Nigerian military leaders to address the escalating political crisis in Nigeria. The goal was to avert civil war by agreeing on a framework for a unified Nigeria. The accord outlined key agreements, including the principle of collective responsibility within the Supreme Military Council and the creation of area commands corresponding to existing regions. While the meeting was initially perceived as successful, disagreements arose over the interpretation and implementation of the agreed-upon resolutions, particularly regarding the role of regional governments and the structure of the military. These disagreements ultimately contributed to the outbreak of the Nigerian Civil War.

Right from the time woman was created the devil saw her as a contender. There was something about the woman that made the devil uneasy, he saw her strength, boldness, assertiveness and audacity so he hatched a plan to use the woman's strength against her. God drew a battle line between the seed of The Serpent (the devil) and the Seed of the woman and from that moment on, contention began for the woman race.

This book is written to show women how to contend and win by understanding their mission, overcoming fear, building capacity, and mastering their weapons of warfare.

Drawing on material from long-term ethnographic and participatory fieldwork among Qur'anic students and their communities, this book offers an alternative perspective on youth, faith, and poverty. Mobilising insights from scholarship on education, poverty research and childhood and youth studies, Hannah Hoechner describes how religious discourses can moderate feelings of inadequacy triggered by experiences of exclusion, and how Qur'anic school enrolment offers a way forward in constrained circumstances, even though it likely reproduces poverty in the long run. A pioneering study of religious school students conducted through participatory methods, this book presents vital insights into the concerns of this much-vilified group.
