This book provides a framework for curriculum planning and makes the argument for an integrated and interdisciplinary training of health professionals at the community level in The Gambia. The benefits of such an approach are immense given that it is responsive to the socio-economic and cultural needs and demands of the community, which are central to the health of the communities. The book is recommended as a resource for all health training institutions, teachers and students alike involved in curriculum development and teaching. It is also recommended to health professionals who may want to re-visit the type of training and curriculum they want and thereby modifying their approach to working at the community level.

Borrowing from the Hebraic tradition of psalmody, latter Christian music composers and musicians derived their songs and hymns from their faith experiences with God and the community. Apart from their melodious distinctiveness, and the universal application of the

lyrics, the respective backgrounds of these hymns make them more relevant and more applicable to our present day situations. The selection of Church hymns in this Global Edition include globally popular songs from: Seventh-Day Adventists Anglicans, Baptists, Methodists, Catholics, Presbyterians, Lutherans, and Pentecostal Churches.

University of Ghana Readers – Migration Reader Series

\$ 35.00 / PB

442gm.

Migration has assumed growing significance in the global development agenda as its potential for economic and social development is increasingly acknowledged. Within the Africa context, perceptions of migration as a negative phenomenon have shifted to recognition of its central role to Africa's transformation. Despite this shift, emerging migration dynamics have not been adequately contextualized and conceptualized, making it difficult to integrate migration into development planning processes. This book attempts to fill the gaps in migration knowledge production, particularly from the perspectives of researchers in the global south and more specifically from Ghana. The chapters provide multi disciplinary perspectives in the contemporary migration landscape in Ghana and Africa. Rather than focus on migration as a problem to be solved, the chapters explore migration as an intrinsic part of the broader processes of structural change in Ghana, which could create opportunities for development if properly harnessed. This reader is an essential resource for migration and development researchers, students, policy makers, practitioners and others interested in the field of development.
