Throughout the collection, each speaker—beautifully, lovingly, painstakingly—negotiates their status as an outsider while also understanding themselves as inextricably linked to and made by the spaces referenced. For those of us who have felt homeless, whether by fiat or fiasco (often synonymous), this collection feels like opening our journals, our most primal screams. Maceration, as a collection, is shaped by loss and memory, even as it questions how each of these experiences come into being.

*I Wish You Courage In The Night Season* is a memoir-like poetry collection. This debut book pores over the pain and confusion caused by identity crisis, fear of fear, and insecurities in a relatable, practical way. The compilation manages to capture the very essence of our human existence.

It also attempts to provide some insight into some of life's quintessential paradoxes:

*What is the meaning of life? Why death? Why racism? Why domestic violence? Why does seemingly unconditional love become conditional, and many more.*

It also includes, self development tools that are guaranteed to help readers in overcoming their own storms.
