Systems of belonging, including ethnicity, are not static, automatic, or free of contest. Historical contexts shape the ways in which we are included in or excluded from specific identifications. Building on an amazing array of sources, David L. Schoenbrun examines groupwork—the imaginative labor that people do to constitute themselves as communities in an iconic and influential region in East Africa within the past millennium. He shows Africans formed groups beyond the face-to-face, working from shrines, without writing.

Between 1920 and 1994, the Catholic Church was Rwanda's most dominant social and religious institution. In recent years, the church has been critiqued for its perceived complicity in the ethnic discourse and political corruption that culminated with the 1994 genocide. In analyzing the contested legacy of

Catholicism in Rwanda, Rwanda Before the Genocide focuses on a critical decade, from 1952 to 1962, when Hutu and Tutsi identities became politicized, essentialized, and associated with political violence.

The feeling of having no power over one's history, no right to describe oneself, no capacity to determine one's destiny, no influence over what is written, no identity to self-definition, and the presence of general misery and hopelessness set the rational central glue that puts the several pages and chapters of this book together. The author presents an antithesis of a community that has for quite long been misrepresented, disregarded, and betrayed by the emerging democratic dispensation. This work is born from the available sources about the Nubi people as they struggled to survive in the pre- and post-colonial Uganda.
