[* Is location the reason why the flags of five separate countries have flown over Taiwan?

- Did you know that Taiwan was once its own Republic and had its own flag?
 Could you describe the flag?
- Did you know the United States once considered making Taiwan a protectorate?
- Can an Island nation like Palau with a population of only 19,000 vote in the United Nations on matters that affect the 23,000,000 people of Taiwan ?
- Island in the Stream provides answers to these and other questions of Taiwan's complex past. At the Same time it raises deeper questions on the issues of sovereignty, self-determination and a nation's identity.]
