## **Official Publications**

National Accounts of Cambodia 1993-2006 : Bulletin No. 11  
Cambodia : Ministry of Planning, National Institute of Statistics, 2007  
iv, 183 p. ; 30 cm  
\$ 18.00

[From Preface:

This eleventh issue of the National Accounts Bulletin presents the Gross Domestic Product (GDP) estimates for 1993 to 2006. Two approaches were used in the estimation, namely the production and expenditure approaches. The methods utilized in this estimation round (1993-2006) are largely similar to the previous estimation exercise (1993-2005). There have been minor improvements in coverage and data revisions to the accounts that impact on the series back to 1993. These changes have improved consistency between the production and expenditure series and reduced the statistical discrepancy of GDP in both current and constant 2000 prices for all years.]
