Reflections: The Legacy of Lee Kuan Yew is a collection of essays reflecting on Singapore's first Prime Minister, Lee Kuan Yew's immense contribution to nation-building and the idea of development. This includes its various models — from government and statecraft as well as leadership and governance, to economic development and the management of plural societies. The papers are written by a range of authors who had worked closely with, or for, or grew up, under Lee Kuan Yew.

This timely book examines new developments in Japan–China relations and new research conducted in Japan, China and elsewhere since 2006. The book covers major issues such as the September 2010 Chinese fishing boat collision incident, cross-Strait relations, the Trans-Pacific Partnership (TPP) negotiations, and China's suspension of rare earth exports to Japan. It explores a variety of theoretical understandings of the Sino–Japanese relationship, namely relationship management, domestic politics, national identities and coevolution.
