---

Taking Action on Climate Change: Long-term mitigation scenarios for South Africa / H  
Winkler

Cape Town, South Africa : UCT Press, 2009

244p.;

ISBN 9781919895253

\$ 39.50

<http://www.marymartin.com/web/product?pid=116876>

In 2007 the author was approached by South Africa's Department of the Environment to head a project to research and develop scenarios that would form the basis for a national, long-term climate policy and for international negotiations on the future of global climate policy after 2012. Using pioneering methodology and cutting-edge work on the interaction between energy modelling and economy-wide modelling, Winkler drew up several scenarios for mitigating emissions. The implementation of the strategic

options outlined in this resulting book will enable South Africa to turn climate change mitigation into a pro-growth, pro-job and prodevelopment strategy for the future.

Beetles of Thailand / Pisuth Ek-Amnuay  
2nd Ed.  
Chiang Mai: Siam Insect – Zoo & Museum, 2008  
495p,; 25cm  
ISBN-13: 9789742890452 (HB)  
\$ 60.00  
<http://www.marymartin.com/web/product?pid=115084>

The first edition of this book was published in 2002 and was also the first book of beetles available in Thailand. This is a revised edition, emphasizing the species content and possibility of additional species for all those beetle families. This edition contains 509 species as compared to the first edition which included only 362 species and subspecies.

---

Tsunami Impact on Mangrove Ecosystems / Nittaratana Paphavasit, Sanit Aksornkoe & Janaka de Silva (Eds)  
Nonthaburi, Thailand: Thailand Environment Institute (TEI), 2008  
xviii. 211p,; 26cm  
ISBN-13: 9789748479347  
\$ 45.00  
<http://www.marymartin.com/web/product?pid=115085>

Mangrove ecosystems play an important role in buffering communities from the impact of coastal hazards. The Asian Tsunami in 2004 provided valuable lessons on the role that mangroves play in coastal protection and on the intrinsic value of maintaining healthy mangroves. This book captures the lessons learned and knowledge gained in Thailand from post tsunami research conducted on the linkages between mangrove ecosystems and the livelihoods of coastal communities. The lessons from this work portray how applied research contributes to the post-disaster environmental rehabilitation and its contribution to good coastal management.

---

Treatment of Wastewater by Anaerobic Stage Reactor / Shreeshivadasan Chelliapan  
Kuala Lumpur: University of Malaya Press, 2009  
xvi. 138p,; 23cm  
ISBN-13: 9789831004845  
1. Sewage – Purification – Anaerobic treatment
