This is one of the few books that argues for a feasible compromise solution to the political conflict across the Taiwan Strait that still troubles greater China. The author elaborates on the factors both enabling and constraining the formation of a hybrid of

federation and confederation. In a unique way he deals with the role of the state and intellectuals (organic, professional, and critical) as well as their interaction in shaping national identities. The important questions raised are: Can China become a true world leader? Will Taiwan be a key player in China's transformation? The book should be of interest to students in political science, sociology, and history, as well as policy-makers and businesspeople who are concerned about the development of cross-Strait relations.

This book describes and analyses the role of the public sector in the often-charged political atmosphere of post-1997 Hong Kong. Walk with Us and Listen: Political Reconciliation in Africa / C Villa Vicencio

Cape Town, South Africa : UCT Press, 2009

224p.;

ISBN 9781919895307

\$ 31.50

For over 40 years, Charles Villa-Vicencio has been on the front lines of Africa's battle for racial equality. In Walk with Us and Listen, he argues that reconciliation needs honest talk to promote trust-building and enable former enemies and adversaries to explore joint solutions to the cause of their conflicts. Villa-Vicencio challenges those who stress the obligation to prosecute those allegedly guilty of gross violation of human rights, and calls instead for more complementarity between the International Criminal Court and African mechanisms to achieve the greater goals of justice and peace-building.

The Politics of Party Coalitions in Africa / Edited by Denis Kadima

Johannesburg, South Africa : The Electoral Institute of Southern Africa, 2006

\$ 15.00

Political party coalitions have become a significant feature of contemporary African politics. Yet, to date, there have been virtually no major comparative studies of the politics of such coalitions. This important book goes some way to filling that vacuum. The authors document, analyse and explain various aspects of the coalition process as it has played itself out in Kenya, Malawi, Mauritius, Mozambique and South Africa and, in the concluding chapter, compare and draw lessons from the experiences of the five countries.
