Marine Biodiversity: Khanom – South Sea Islands, Thailand / Visut Baimai & Rungsima Tanthalakha (Editors)
Bangkok: Biodiversity Research and Training Program, 2009
160p. ; 31cm.
ISBN-13: 9786161200411
\$ 60.00

The study in the 3 – year (2006-2008) initiative project has shown that Khanom – South Sea Islands (Mu Koh Thale Tai) is rich in marine biodiversity and supports a variety of colourful fauna. A total of 719 species of marine life have been detected.
... this study has revealed the unseen variety of marine organisms that live in harmony making the Khanom – South Sea Islands one of the most valuable natural treasures in Southern Thailand.

Echoes of Life: Sungai Pulai and Beyond / Vincent K. K. Chow
Petaling Jaya: MPH Group Publishing Sdn. Bhd., 2010
211p. ; 31cm.
ISBN-13: 9789675222535 (HB)
1. Mangrove ecology – Johor – Sungai Pulai – Pictorial works
2. Coastal ecology – Johor – Sungai Pulai – Pictorial works
\$ 150.00

Echoes of Life showcases the rich biodiversity of the Sungai Pulai Mangroves. Merambong Island and the Merambong Seagrass Meadow. The three habitats each has its own unique bio-assemblages and each is represented by a group of common organisms. These locations sited in the southwest of Johor state are relatively not well studied for their floral and faunal contents. This is the first attempt at documenting the terrestrial and marine lives of the three distinct areas as well as the activities of Man, including the Sea Gypsies who have settled along Sungai Pulai since time immemorial.
