"The Institute of Southeast Asian Studies (ISEAS) launched its electronic publication ISEAS Perspective in mid-2012. During its first year in existence, 58 internally reviewed issues were produced. These were distributed in steady fashion by email to addresses registered with the Institute. However, ISEAS has deemed it a worthy public service to have selected articles from that first year published in a single printed volume at cost price. This is the book that you now hold in your hand. Articles herein were chosen according to strict criteria such as analytical strength; continued salience of the subject discussed; referential potential; literary quality in general; et cetera. ISEAS intends to print such annual selections in the coming years. We are certain that you, the reader, will find them informative and stimulating." – Tan Chin Tiong, ISEAS Director

3. China-Foreign relations.
4. China- Politics and government.

This book offers a comprehensive review of the Communist Party of China's approach to diplomacy, through an extensive evaluation of the major practices and theories behind the Party's diplomacy, with its main achievements in its 90 years of diplomacy highlighted. It delves into the views held by the Communist Party of China on the changing times, the international system, national interests, and developments in China's diplomacy. Other topics covered at length include China's traditional and non-traditional diplomatic practices as well as basic characteristics of the Party's diplomacy.

Few books have touched on the Communist Party of China's diplomatic history in detail. China's Diplomacy: Theory and Practice fills the gap by shedding insights on the Communist Party of China's global strategies and diplomatic planning, contributing to the building an international relations theory with Chinese characteristics. Readers will gain a deeper understanding of China's international relations from the forward-looking analyses on the Party's core role in leading China's diplomacy, and the theoretical explanations behind the practices.
