Crossing the line : When cops become criminals / Liza Grobler
Jacana Media, South Africa 2013

280 p.;
9781431408122
\$ 35.00 / HB

Crossing The Line is a book of great significance in South Africa today: it is an in depth examination of police corruption and crime in the country, and hopes to remove the topic from academia and place it in the general public domain. The topic is, of course, highly relevant and corruption processes need to be understood by the man on the street because, after all, it affects all citizens. The book includes a brief focus on three international policing agencies: The New South Wales Police Force, London's Metropolitan Police and the New York Police Departments Internal Affairs Bureau. It then moves on to the South African Police Service. Highlighted is the vast array of crimes committed by members of the SAPS - ranging from bribery and corruption to police brutality, robbery, rape and murder - and includes corrupt officers' symbiotic relationships with gangs and syndicates. Information has been provided by SAPS interviewees as well as specialists in the field of policing and police criminality. The interviews are backed up by media and literature illustrations, and invaluable input on the topic is provided by police offenders, all of whom were incarcerated when the interviews were done.

Understanding South Asian Minorities in Hong Kong / John Nguyet Erni, Lisa Yuk-ming Leung.

Hong Kong University Press,Hongkong 2014

ix, 237p.
Includes Index.
9789888208357
\$ 32.00 / PB
374 gm.

People of South Asian descent are a large, varied and increasingly visible part of Hong Kong's population. Most have found ways of prospering despite social and economic obstacles and widespread discrimination. Focusing on three important groups—Indians, Pakistanis, and Nepalese—Erni and Leung explore the cultural histories of South Asians in Hong Kong and their experiences at school and at work. The book then discusses how far South Asians' legal rights are protected by recent anti-discrimination legislation, how they are presented in mainstream media, and how they in turn have made creative use of the media in their efforts to secure recognition as full members of society. Written in an accessible style and drawing on a range of case studies, *Understanding South Asian Minorities in Hong Kong* is intended primarily for university students and general readers. It will also be of interest to scholars in a wide variety of disciplines, including sociology, social work, media studies, anthropology, history, and cultural studies. At a time when minority rights come increasingly under scrutiny, this book will also be essential reading for advocates, politicians and policy-makers.
