Volume 1—Ch'ing Cash ()258 pages

Volume 2—Ch'ing Cash Year Tables ()13 pages and 53 foldout year tables of Ch'ing cash coin rubbings

Coins are an accurate gauge of a country's economic health, as the total number of coins released each year directly relates to an administration's ability to pay workers and military troops. The study of Ch'ing cash, moreover, necessitates an historical analysis of all mints within China's macroeconomy from 1644 to 1911.

Werner Burger's canonical book Ch'ing Cash until 1735 has been the core text in the field for the past 40 years. Burger's new publication expands on his PhD research to cover the whole of the Ch'ing dynasty. The first volume in the set lists in detail the development of Ch'ing Cash, its manufacture and its many stages from ivory trial pieces to the final product. Over the decades, Burger has developed a novel way for numismatics to present the coins; namely, arranging each coin by individual mint and year produced. This method has led to several unexpected discoveries, such as why during Shun-chih's reign coins appear with the same character on the top and the right. The second volume contains the rubbings of over 6,000 coins in 53 large foldout charts. Each coin includes a rarity index and an own number. Based on the original research documented in this book, future auction catalogues only will need to list the coin number and its condition for reference.

From Ch'ien-lung onward, the system became so complicated (including two new territories: Sinkiang and Tibet) that information provided from historical records such as the Wen-hsien t'ung-k'ao was no longer enough to enable the arrangement of coins from the numerous new mints. What was desperately needed were the actual mint reports, but these proved difficult (if not impossible) to track down. If any of the mint reports had survived, they should have been housed in The First Historical Archives of China, inside the Old Palace in Peking. Burger spent years visiting every Ch'ing study address, but with no luck. Finally in 1996, China acknowledged that they had 2,838 mint reports. This information eventually became 60 large bound books in 43,742 pages. Armed with this information, Burger was able to arrange the coins of the remaining 176 years in sequential order according to year. This again resulted in a number of discoveries—all of the old problems that had long puzzled Chinese numismatists could now be solved, such as Manchu mint marks, which previously had not been listed. In addition, Burger has compiled a list of all coins cast by every mint from 1736 until 1911. Such an accurate statistical breakdown of China's financial situation during the Ch'ing has allowed Burger to go one step further and divide the total coin production by the total population. His findings corroborate the socio-historical and economic records: during Ch'ien-lung, China cast 16 to 18 new cash coins each year, while T'ung-chih was unable to manage the casting of even one coin per person. Such a detailed study of the money supply of a Far Eastern country in the 18th and 19th century is a vital new source of information for economic historians and Sinologists. Over the course of 50 years of continuous research on Ch'ing cash coins, Burger has acquired ivory, brass, bronze, copper, zinc, lead and iron rare coins, and complete types of official Hsien-feng paper notes and silver sycees. In addition, the current study lists several hundred official and private amulets with Ch'ing reign titles. Burger's collection is likely the world's most complete Ch'ing cash collection.

Nearly seven thousand cash coins are reproduced throughout the two volumes, including amulets, forgeries, Tibetan silver coins, Sinkiang gold coins, paper notes and money trees. A descriptive analysis accompanies the high-resolution images, highlighting stylistic deviations that link individual coins to specific mints and reigns.

Revolutions as Organizational Change : The Communist Party and Peasant Communities in South China, 1926-1934 / Baohui Zhang (Author)

Hong Kong University Press, Hongkong 2015

x, 182p.

Includes Index ; Bibliography

9789888208395

\$ 50.00 / HB

416 gm.

By comparing peasant revolutions in Hunan and Jiangxi between 1926 and 1934, *Revolutions as Organizational Change* offers a new organizational perspective on peasant revolutions. Utilizing newly available historical materials in the People's Republic of China in the reform era, it challenges the established view that the great Chinese revolution of the twentieth century was a revolution "made" by the Chinese Communist Party (the CCP).

Merchants of Canton and Macao : Success and Failure in Eighteenth-Century Chinese Trade / Paul A. Van Dyke

Hong Kong University Press, Hongkong 2016

xlviii, 443p.

Includes Index ; Bibliography

9789888139323

\$ 79.00 / HB

900 gm.

Merchants were central to the huge growth in China's foreign trade and contributed to the development of world markets and networks. *Merchants of Canton and Macao: Success and Failure in Eighteenth-Century Chinese Trade* brings together much new research about the inner workings of the merchants of Canton and Macao. The book studies in detail the leading Chinese merchants and merchant families as well as the porcelain and silk trades. By examining the successes and failures of dozens of Chinese merchants involved in foreign trade, it provides fresh insights into China's unique form of capitalism and her role in the rise of global commerce.

Van Dyke's conclusions on the nature of Qing policy towards foreign trade are bold, original and supported by intensive research. In contrast to the traditional focus on British and American trade, his research draws on archives in multiple languages, spread around the world.

Of Dreams and Spaces is a collection of five years of thoughts and stories nurtured by designing, building and running village schools in Takéo, Cambodia. It is a conversation about differences - in values and cultures, of needs and visions, between "us" and "them" - and a conversation about connections. Through the many faces, voices, touches and traces encountered in Cambodia, Project Little Dream has made their way from indifference and unfamiliarity to similarity and family. Today, over five hundred children are studying English in four schools: in Prey Run Village, Khna Rong Village, Thon Mun Village and Thnouth Village. This book is a narrative journey woven by their experiences

Follow up volume to Ronachai's award-winning Siamese Coins A study of the various forms of Thai money from their origins in Funan up to the introduction of the modern decimal system of baht and satang Includes a reproduction coin This book is the result of over 40 years of study of the various forms of Thai money from their origins in the ancient kingdoms and empires starting with Funan up to the introduction of the modern decimal system of baht and satang. As such it represents a supplement to Krisadaolarn and Vasilijs Mihailovs' award-winning book, Siamese Coins - From Funan to the Fifth Reign, and includes hundreds of additional coins illustrated in various aspects. This work covers the production of pressed silver coins; the use of metallic ingots known as toks; elongated silver bars commonly known as tiger tongues; bent ingots known as chiang money; metallic alloy, glass and porcelain tokens and most famously pot duang, commonly called bullet money because of their shape. The book ends with the transition to flat coinage similar to that used today. The author personally examined, photographed and weighed thousands of specimens, conducted hundreds of assays and obtained images from national museums, dealers and private collectors."

The book brings together Rehman Sobhan's personal story situated within the historical events of Bangladesh, from its birth as East Pakistan to its evolution as an independent, democratic state.

UNTRANQUIL RECOLLECTIONS: The Years of Fulfilment is a memoir of Rehman Sobhan, a prominent economist and public intellectual who played an active role in the Bangladeshi national movement of the 1960s. It is a narration of events by the author who lived through extraordinary phases in the histories of India, Pakistan and Bangladesh and the impact they had on him. His story relates to the life and perspectives of an individual born into a family of relative privilege and educated at elite schools. Later on, his life moved on to a different trajectory from its intended path and he eventually came to be involved in the political struggles that culminated in the emergence of an independent Bangladesh.

This book chronicles the roles of Sarat and Subhas Chandra Bose in the Indian freedom struggle. It draws from first-hand accounts of Amiya Nath Bose who was close to them as family, political ally and also was a confidant and trusted envoy.

The book takes us through the turbulent political arena of India in the 1920s and unravels the politics of the Indian Nationalist Movement as experienced by Sarat and Subhash Chandra Bose. It reveals their interactions with contemporary leaders Chittaranjan Das, Jinnah, Motilal and Jawaharlal Nehru, Vallabhbhai Patel and Mahatma Gandhi—down the years till Partition in 1947, an event which Sarat Bose relentlessly opposed.

With access to diaries, notes, photographs and private correspondence, this book, written by a member of the Bose family, brings to light previously unpublished material on Netaji and Sarat Chandra Bose.

Missionaries -- India, Northeastern -- Social conditions -- 20th century.

Slavery -- India, Northeastern -- History -- 20th century.

Antislavery movements -- India, Northeastern -- History -- 20th century.

In 1908, a Welsh doctor named Peter Fraser turned down a lucrative job with the British government and travelled as a Christian missionary to the remote Lushai Hills of North-east India-the habitat of a reportedly wild, headhunting tribal people. While Fraser found acceptance among the natives, he also came in conflict with the colonial state over the tribal practice of bawi, a practice he found akin to slavery.

This clash was symptomatic of a larger issue that marked colonialism in South Asia: the tussle between the colonial administration and the missionary institutions. The Uprising chronicles this conflict which witnessed Fraser, after being expelled by his own mission, petitioning and lobbying in the British Parliament and subsequently in the League of Nations through the Anti-Slavery Society, and the lasting impact it had on the lives of the Lushais.

Writing in a narrative form, Sajal Nag brings out the immense historical significance of the contradictions between the colonial state and the missionary institutions, and argues that neither institution, contrary to popular perception, was a liberating agency.

Madan Mohan Malaviya and the Indian Freedom Movement / Jagannath Prasad Misra

Oxford University Press,New Delhi. 2016

xi, 314p. ; 22cm.

Includes bibliography and index

9780199463756

\$ 21.25 / HB

560 gm.

At the time when the national movement was still in its early stages, Madan Mohan Malaviya emerged as an enigmatic but commanding figure in the political landscape of India. This work reconstructs Malaviya's ideal of nationalism, which was composite, constructive, and creative, and offers a fresh perspective on an important period of modern India's political history. Utilizing new and authentic source material, this book traces Malaviya's role in the freedom struggle, the people who supported him, his relations with other established political leaders of the country within and outside of the Congress party, and how he saw his own actions and role in public life. Taking Malaviya as a particular example of subcontinental leadership, Jagannath Prasad Misra studies the method and manner of Malaviya's nationalist propaganda. He shows that rather than being a restraining influence, Malaviya's faith in constitutional politics and educational advancement laid a solid foundation for the uplift of the nation.
