Comparative Legal Systems / Basil C. Bitas  
LexisNexis, Singapore 2016

9789814608374

\$ 85.00 / HB

This book takes a novel approach to the area of comparative legal study by identifying eight orienting propositions that together inform the study of "comparative law", or as this book tends to prefer, "comparative legal systems." Thus, this book is not so much a recitation and summary of comparative law concepts, but rather an operational road map for approaching the area. Taken together, the eight propositions reflect certain, central themes that define the area for scholars while offering practitioners and informed observers a guide for understanding and navigating the forces shaping the evolving international environment.

A book tailored to provide a basis for understanding the role of comparative legal study in an increasingly interconnected world.

Introduction to Shipping / Capt Cheong Kwee Thiam

LexisNexis, Singapore 2016

9789814753609

\$ 69.50 / HB

This title essentially covers all the fundamental insights on shipping. Singapore is one of the major shipping hubs in the world. There is a lack of locally produced texts to educate new entrants to the shipping sectors. Due to its broad prospect and vast evolutionary nature either in technology or commercial, the acquisition of shipping knowledge should never be deemed sufficient nor adequate. Nevertheless, to start off, one should acquire its fundamentals adequately and this is what this book achieves. The 2nd edition is added with elements and contents that through the author's observations in the past years, as adequate and appropriate, further required by new entrants to the shipping industry. As shipping is a complex and dynamic business, an update in the commercial and legal realms (in an introductory tone) is always necessary, thus this new edition.

Criminal Law in Malaysia and Singapore (Revised 2nd Edition) / Stanley Yeo, Neil Morgan and Chan Wing Cheong

LexisNexis, Singapore 2015

9789814608510

\$ 140.00 / PB

This is a revised version by the authors to the existing content which critically evaluates the general principles of criminal responsibility in Malaysia and Singapore. This book is essential for legal practitioners, judges, scholars and students. The detailed analysis of the principles, workings, and complexities of criminal law in each chapter is done in an organised and structured manner, with clear headings and sub-headings that make it easy for referencing and review. A comprehensive analysis on major cases, academic commentary and law reform perspectives on criminal law clearly makes the book an authoritative text referred to in legal proceedings, judgments and scholarly journals.

This is a definitive source of comparative law for lawmakers and scholars in other jurisdictions, where the Indian Penal Code forms part of the law, as it features helpful and insightful discussions of how Malaysian and Singaporean judges have interpreted and applied the Code provisions.

Human Resource Practitioners' Guide to Industrial Relations / Arthur Khong

LexisNexis, Singapore 2015

9789814608268

\$ 59.00 / PB

Industrial Relations is commonly defined as the relationship between the management of a company and the trade union representing the workers. As such, not every HR practitioner has the opportunity to grasp the complicated, often emotive, area of industrial relations as it is only applicable to unionized companies.

The first edition of this book originates from the other title of this series, Human Resource Practitioners' Guide to Employment Laws. It serves to outline the Employment and Industrial Relations in Singapore, to have a better understanding of the rights and obligations of both employers and employees especially in unionised companies.

This book is a valuable resource for those who want to learn more about Employment and Industrial Relations in Singapore.

Key Benefits

- Written in simple language for easy understanding
- Scenarios and suggested solutions for each topic are relevant to the application of the Employment and Industrial Relations in Singapore

The Legal System of Singapore - Institutions, Principles and Practices / Gary Chan Kok Yew, Chen Siyuan, Goh Yihan, Jack Tsen-Ta Lee, Gary Low, Mahdev Mohan, Eugene K B Tan,  
LexisNexis, Singapore 2015

9789814608404

\$ 75.00 / PB

Over the decades, the legal system in Singapore has evolved in a manner that draws from its Westminster heritage but also meets changing needs and aspirations. The 50th anniversary of the nation's independence in 2015 is an apt occasion to take stock of these developments.

The chapters of this book can be grouped broadly under the headings "Institutions", "Principles" and "Practices". It is the most up-to-date Singapore legal system book around, written with students in mind and those who require a quick grounding in the legal system in Singapore.

#### Key Features

- It covers the history of the legal system, fundamental constitutional concepts and the implications they have for the roles of the branches of government.
- It gives a close examination on the institutions making up the legal system: the Executive, Legislature and Judiciary; the legal profession; and legal education in Singapore.
- It includes practice-oriented chapters such as civil and criminal litigation, mediation and arbitration, and Singapore's relations with the international legal system.
- It discusses the doctrine of judicial precedent, case method and analysis, and statutory interpretation.

Evidence and the Litigation Process 5th Edition / Jeffrey Pinsler, SC  
LexisNexis, Singapore 2015

9789814608657

\$ 340.00 / HB

Highly acclaimed in and out of Singapore since it was first published 24 years ago, this work covers all developments since the fourth edition was published in 2013. The preceding five years witnessed a critical phase in the reform of the law of evidence. The amendments to the Criminal Procedure Code in 2010 and the Evidence Act in 2012 expanded the scope of admissibility of evidence, addressed new advances in technology and introduced more flexible measures in the process of adjudication at trial. Many of these developments (which were examined in the fourth edition of this work) have been analysed by the courts. Apart from the statutory reform, the Judiciary have been busy tackling a variety of difficult issues raised by both statutes. As the law continues to evolve, the purpose of this fifth edition is to update and consolidate the law of evidence as it now stands.

The book provides a balance between analytical discussion of the principles and the practical application of the law and includes numerous illustrations and practice-related situations for this purpose. It offers the legal profession and students an intensely detailed and integrated portrait of the litigation process (including procedure and advocacy) and is therefore a vital source of reference. The book recognises that this subject is particularly difficult primarily because of the difficulties inherent in the Evidence Act (a significant part of which remains in the state it was enacted in 1893), and the tension between this statute and the constantly developing common law. No effort is spared in tackling these problems and examining all applicable sources of law. This highly successful publication has already sold thousands of copies in the course of the first four editions.

Singapore Syariah Appeals Reports (1980–2010) /

Academy Publishing, Singapore 2015

1v.

\$ 400.00 / HB

2384 gm.

The Syariah Court of Singapore hears and determines disputes on Muslim marriages, divorces, the ancillary matters thereto and betrothal as prescribed by the Administration of Muslim Law Act. Cases at first instance are heard by the Syariah Court. Appeals from decisions of the Syariah Court are heard by the Appeal Board. Each appeal is heard by a separately-constituted Appeal Board. Published by the Syariah Court, the Singapore Syariah Appeals Reports (SSAR) is the official report series of grounds of decisions delivered by the Appeal Board. This inaugural backset is a complete compilation of all significant cases decided by the Appeal Board between 1980 and 2010. Grounds of decisions for appeals heard by the Appeal Board from the decision of the Registrar of Muslim Marriages (ROMM) are also published in this series. Where the decision is delivered in Malay, the original Malay version of the Appeal Board decision is reported together with its English translation. Each report carries a catchword summary of the case highlighting the main issues decided; commentaries and updates in the form of "Notes" appear at the end of the report, where appropriate. Citations of Quranic verses referred to in a decision are listed in the case report.

Commercial Applications of Company Law in Singapore (5th Edition) / Victor C S Yeo Joyce Lee; Pamela Hanrahan; Ian Ramsay; Geof Stapledon  
CCH Asia Pte Limited, Singapore 2015

9789814446174

\$ 140.00 / HB

Corporate compliance is a legal requirement for all Singapore registered companies. It is a responsibility and matter of concern for accountants, company secretaries, in-house legal advisers, in-house accountants, and lawyers specialising in corporate law practice and corporate litigation.

Since its enactment in 1967, the Singapore Companies Act has undergone many reviews to ensure that the corporate regulatory regime is robust and supports Singapore's growth as a global hub for businesses and investors.

To keep up-to-date with Singapore's company law, those responsible for corporate compliance need to have knowledge of company law in Singapore, recent amendments to the Companies Act, as well as understand the effect of key legislative changes introduced in the Companies (Amendment) Bill 2014.

This is where the Commercial Application of Company Law in Singapore, 5th Edition published by Wolters Kluwer, serves a huge purpose to accountants, company secretaries, legal advisers in corporate law practice.

Commercial Application of Company Law in Singapore provides comprehensive working knowledge of the sources, application and impact of company law in Singapore and focuses on the ordinary events and issues faced by companies and their advisers. It further incorporates commentary on recent cases and any amendment to legislation as at 1 July 2015.

The reader is given an overview of the function and structure of companies, the operation of company law, the formation and legal nature of companies and the securities industry. In addition, its instructive content includes Member's decision-making, powers and duties of directors, reporting and disclosure requirements, share issues and takeovers, and winding up regulations.

Transfer Pricing in Singapore / Sowmya Varadharajan  
CCH Asia Pte Limited, Singapore 2015

9789814446280

\$ 110.00 / HB

Transfer Pricing is one of the most important issues in international tax. With the recent global recession, intercompany transactions are under increased scrutiny as tax authorities seek to maintain or increase their tax bases. Meanwhile, MNCs are focused on the impact of transfer pricing on distribution of taxable income among countries with different tax rates.

Businesses with cross-border inter-company transactions should ensure a thorough understanding of the concept of transfer pricing, defined as the prices at which companies sell goods, services and intangible assets to related parties, as well as the requirements for compliance and the risks for non-compliance.

On 6 January 2015, the Inland Revenue Authority of Singapore (IRAS) released revised Transfer Pricing Guidelines. Apart from reflecting the increasing complexity in Transfer Pricing arrangements, the new guidelines stress the need for timely and more transparent reporting of transfer pricing within a multinational group and the benefits of more contemporaneous TP documentation.

For tax and accounting practitioners in Singapore who have to manage the challenges of transfer pricing documentation, Wolters Kluwer has introduced Transfer Pricing in Singapore. This aims to provide a practical, accurate and reliable presentation of the structure, features and ambit of Transfer Pricing accounting and tax regulations in Singapore.

It is a publication of value to CFOs, accountants, financial executives, internal auditors and tax professionals in private and public entities.

Derivatives and Hedge Accounting / Ng Eng Juan; Chong Kooi Wah; Ho Kok Yong; How Chin Hong, Alywin

CCH Asia Pte Limited, Singapore 2016

9789814446303

\$ 40.00 / HB

Derivatives & Hedge Accounting is written specially to help readers unravel the complexity of hedge accounting. The book addresses hedge accounting and two key international standards: IAS 39 Financial Instruments: Recognition and Measurement (known as FRS 39 in Singapore) and the new IFRS 9 Financial Instruments (known as FRS 109 in Singapore) issued in November 2014.

Authors Ng Eng Juan et al. take a straight-forward step-by-step approach to deal with the complex topic in just three chapters:

- Chapter 1 Accounting for Derivatives discusses the nature, valuation and accounting for the four common types of derivatives: options, forwards, futures and swaps.
- Chapter 2 Hedge Accounting under IAS 39 looks at hedge accounting under the existing IAS 39 standard.
- Chapter 3 Hedge Accounting under IFRS 9 looks at hedge accounting under the new IFRS 9 standard.

A source of reference for the understanding of the law and issues involved under the criminal justice system

This text marks a further dimension in legal publication. Conceptualized as a workbook, an empirical approach is used in the explaining of the various stages in the administration of criminal justice: from the lodging of police report, investigations, pre-trial and trial proceeding, sentencing and the final stage, appeal.

However unlike the narrative form usually used in orthodox legal publication, the authors have opted for the media of tabular charts. Material is compressed to essential elements, arranged in sequence of application and where relevant, are supported with copies of precedents.

The result is a snapshot presentation of what constitute the processes of criminal justice. The various stages are explained in sufficient depth and breadth by the authors to enable the use of this publication as a source of reference for immediate understanding of the law and issues involved under the criminal justice system in its dispensing of justice.

Key Features:

- Explains the various stages in the administration of criminal justice: from the lodging of police report, investigations, pre-trial and trial proceeding, sentencing and the final stage, appeal.

- A source of reference for immediate understanding of the law and issues involved under the criminal justice system in its dispensing of justice.

From one of the foremost authority and leading author of Malaysia Law of Contract, Tan Sri Dato' Seri Visu Sinnadurai, comes this unique and heavy commentary on the Contracts Act 1950 and its propositions of the law to complete your Contract Law library. Before understanding the principles of the law, it is imperative that the legislation be digested.

This book does just that as each section of the act has been dissected and loaded with deep and detailed commentary and illustrated with leading cases from Malaysia and other Commonwealth jurisdiction for easy and in-depth understanding of the law. A must-have book for all practitioners as it highlights the principles of the Law of Contract from its roots, that is the act itself. Not only that, the gravity of the content of this book has the makings of an instant classic, as the leading text on Contract Law referred to by all the practitioners, bankers and others involved in commercial law in Malaysia.

This is the first book that provides commentaries on the provisions contained in the Contracts Act relating to Guarantees, Bailment and Agency.

#### Key Features

- Detailed and wide-ranging as it is not restricted to the law as contained in the provisions of the Contracts Act 1950. Also contains discussions on other related aspects of the law that are not expressly provided for in the Act but judicially accepted as part of the law in Malaysia.

Muslim law is an integral part of the South Asian legal system, and case law plays a major role in its interpretation, application, and development. Through a selection of principal judicial decisions and significant fact situations from pre- and post-independence India, Pakistan, and Bangladesh, this volume provides an easy access to the basic principles and rules of Muslim law, and shows how case law acts as a social barometer and an instrument of change.

India has often been called the 'pharmacy of the developing world' for providing high-quality and affordable generic and life-saving medicines. Having developed its own alternative model of conforming to the TRIPS Agreement, which is perceived as being in direct opposition to the US model of patent law, India has faced stiff opposition to its patent law reforms in the form of counter-provisions in the free trade Agreements entered into by the US and other Countries.

What are medical negligence claims really about? Although the legal definition of "medical negligence" involves the failure of healthcare service providers to exercise a standard of due care, empirical findings from a qualitative case study set in Sri Lanka demonstrate that medical negligence claims do not straightforwardly represent the same claim is a singular episode which is caught in the midst of a dynamic dispute journey and is, therefore, part of a larger process involving its participants' understandings of explanations of, and responses to healthcare experiences.
